

cqmesh (MinGW)

cqmesh has been built using GCC 4.5.2 and G++ 4.5.2 under MinGW environment.

Example (in 'examples' folder):

- `triangle -e -P -q25 double_hex.poly`
- `cqm double_hex.1`
- `meshview double_hex.1-quad`

Output

The source code is available at:

- http://www.dimap.ufrn.br/~mfsiqueira/Marcelo_Siqueiras_Web_Spot/cqmesh.html
